D. Yüksel Yence – <i>Prevalence, antibiotic resistance, enterotoxin genes, biofilm formation and agr typing of Staphylococcus aureus from raw milk and cheese</i>	191
A. Al-khafaji, A. Alsultan, D. Alsallami – <i>Development of a rapid and highly accurate diagnostic test for detecting Theileria equi in horses using recombinase polymerase amplification (RPA) combined with nucleic acid lateral flow immunoassay</i>	203
A. Pastuszka, L. Guz, J. Ziętek, M. Torbicz, K. Szarek, M. Oszust – <i>Cellulolytic bacteria associated with gut of yellow mealworm (Tenebrio molitor, Coleoptera: Tenebrionidae) larvae – isolation and molecular identification</i>	209
M.N. Azam, F.A. Atif, M. Kashif, M.A. Zaman, M. Imran – <i>Molecular surveillance of small ruminant anaplasmosis and phylogenetic investigations on zoonotic Anaplasma capra from distinct agro-ecological regions of Pakistan</i>	219
A. Anatolitou, A.F. Mavrogenis, K.I. Sideri, D. Psalla, M. Markou, N.N. Prassinou – <i>Serum and synovial lactate dehydrogenase levels after allogeneic mesenchymal stem cell implantation in rabbit cartilage defects</i>	231
N. Baksi, G.Ş. Gokdemir, A. Arkaş Alklay, Z. Karakoç – <i>Effect of Ashwagandha (Withania somnifera) on cardiac aquaporins in adolescent rats under a chronic unpredictable mild stress model</i>	241
P. Wójcicka, D. Żakowska, P. Głowacka, P. Adamczyk, G. Graniak, P. Rutyna, M. Bijak, M. Podogrocki, M. Niemcewicz – <i>The ability to detect wild boars with increased body temperature in the natural environment with the use of unmanned aerial vehicles equipped with thermovision in two provinces in Poland</i>	255
M. Wegner, M. Gesek – <i>The influence of Ross 308 breeder flock age on serum Newcastle Disease Virus and Infectious Bursal Disease Virus antibody levels and their transfer to offspring</i>	263
M. Madrigal-Valverde, A.K.S. Cavalcante, L.S. Brito, I.C. Vasconcelos, L.D.P. Maggitti Junior, B.S.S. Carôso, R.F. Bittencourt, M.V.G. Loiola, A.L. Ribeiro Filho – <i>Reproductive parameters of buffaloes subjected to pharmacological control of the estrous cycle: lowest cost x best benefit</i>	271
Waleed H. Mahallawi – <i>Novel bivalent mucosal antigen formulation targeting SARS-CoV-2 and influenza: immunogenicity assessment using an in vitro human nasal-associated lymphoid tissue model</i>	281
N.K. Akbulut, I. Yıldız, M.T. Yılmaz – <i>Influence of melatonin on reproductive performance and some blood parameters in rabbits</i>	291
P. Kowalczyk, M. Dolska, M. Czopowicz, J. Sterna, M. Galanty – <i>Reference values for dynamic radiographic measurements of lumbosacral junction width in cats</i>	299
M. Ghafoor, M. Saqib, K. Ashfaq, S.U. Rehman – <i>Novel capsular diversity and antimicrobial resistance determinants of Staphylococcus aureus associated with bovine and bubaline mastitis</i>	313
C. Nuhay, A.E. Çelik, S. Yalcin – <i>First report of Lactococcus garvieae from bovine mastitis in Türkiye characterizing some adhesion-related virulence genes and antimicrobial resistance profiles</i>	327

Short communications

Gy. Lakatos, B.N. Vincze, N. Vass, A. Dobos – <i>Effects of melatonin treatment on twin pregnancy and fetal mortality in sheep</i>	339
Z. Krepelková, V. Karaffová, K. Bárdová, F. Zigo, J. Novotný – <i>Gastric pH and Fusobacterium gastrois detection in relation to gastric lesions in fattening pigs</i>	343
H. Ma, J. Zeng, M. Zhuo, D. Wang, Z. Yuan, S. Ali, K. Mehmood, M. Shahzad, S. Hameed, A.I. Malik – <i>Epidemiological investigation of Streptococcus bovis in yaks in different regions of Tibet</i>	349

Review paper

A.J. Korzekwa, M.K. Kowalik, G. Boztepe, J. Gogola-Mruk, A. Ptak – <i>How toxic environments influence well-being of cervids, and further perspectives for cervid monitoring in Europe</i>	353
