# Declaration on the Use of Artificial Intelligence (AI) in the Preparation of a Manuscript

In connection with the submission of the manuscript to ***Studia Quaternaria***, the corresponding author, on behalf of all co-authors, declares that:

☐ **No artificial intelligence (AI) tools**, including generative AI, were used at any stage of the manuscript preparation.

**or**

☐ **Artificial intelligence (AI) tools were used** as described below:

**Name of the AI tool (including version, if known):**

……

**Scope of use (please tick all that apply):**

- ☐ language editing and proofreading,
- ☐ translation,
- ☐ improvement of writing style and readability,
- ☐ summarization or paraphrasing,
- ☐ generation of preliminary text,
- ☐ data analysis support,
- ☐ computer code generation,
- ☐ preparation of figures or graphical materials,
- ☐ other (please specify): .....
  .....

I hereby declare that:

1. All content generated or modified with the assistance of AI tools has been carefully reviewed and verified by the authors for scientific accuracy, factual correctness, language quality, and compliance with publication ethics.
2. The authors accept full responsibility for the entire content of the manuscript, regardless of the extent to which AI tools were used.
3. No AI tool has been listed as an author or co-author of the manuscript.
4. The use of AI did not violate copyright, confidentiality obligations, or applicable data protection regulations.
5. Where AI was used for data analysis, code generation, or preparation of graphical materials, the authors verified the accuracy of the outputs and can provide sufficient information to ensure reproducibility if requested by the Editorial Office.

**Name of the Corresponding Author:** .....

**On behalf of all co-authors**

**Date:** .....  **Signature:** .....
